The PUNCH Public Engagement Team
Oral
(Invited Talk)
The multi-institutional, multicultural PUNCH Outreach team is grateful to be embedded in the PUNCH mission. We have enjoyed a steady increase in the collaboration of mission team members on outreach products and events that engage public participants in meaningful learning experiences.

This presentation provides an update on the status of PUNCH Outreach activities and products while celebrating specific examples and insights regarding the value of mission team member contributions.

The integration of PUNCH Outreach with the PUNCH mission team is leading to higher quality products and events, as well as to a legacy of greater capacity for heliophysics outreach among outreach professionals and institutions.
