Cherilynn
Morrow
Consultant - Southwest Research Institute
John Keller, Fiske Planetarium
Mike Zawaski, Fort Lewis College
Duke Johnson, Clark Planetarium
Samantha Kornreich, Fiske Planetarium
Geoff Skelton, NM Museum of Natural History & Science
Jayne Aubele, NM Museum of Natural History & Science
Joe Aragon, Pueblo of Acoma
David Cornucopia, Chaco Culture NHP (ret.)
Sanlyn Buxner, Planetary Science Institute
Oral
This presentation provides an update on the accomplishments and future plans of the outreach program embedded in the PUNCH Mission. Accomplishments include a robust suite of well-vetted PUNCH Outreach learning activities being adopted and adapted by others for enduring use. Future plans include amplifying dissemination efforts, completing and disseminating a feature-length planetarium film on Ancient & Modern Sun-Watching, and working with the mission and science teams to make monthly highlight videos about "What's Happening in the Heliosphere" available for use in planetarium domes worldwide.
