

5th Eddy Symposium

Sponsorship Opportunities

The NASA 5th Eddy Cross-Disciplinary Symposium, to be held in the Fall of 2025 in Boulder, CO, is presented in collaboration with NASA's Living With a Star Program and the University Corporation for Atmospheric Research (UCAR) Cooperative Programs for the Advancement of Earth System Science (CPAESS). This ongoing series of events brings together great minds across the interdisciplinary field of heliophysics. It continues the legacy of the frontier-thinking, cross-disciplinary gathering that the Eddy Symposia have come to define. Sponsorships by corporate partners, facilitated by Friends of the National Center - UCAR's development office, allow us to expand our support of student participation, extend our networking and collaboration efforts, and reach broader communities advancing our work.
