

Space Weather Workshop Sponsorship Opportunities

The Space Weather Workshop is organized by the University Corporation for Atmospheric Research (UCAR) Cooperative Programs for the Advancement of Earth System Science (CPAESS), along with a community-based organizing committee and co-sponsored by the NOAA Space Weather Prediction Center, the NSF Division of Atmospheric and Geospace Sciences, and the NASA Heliophysics Division. Through sponsorships facilitated by Friends of the National Center, UCAR's development office, corporate partners allow us to extend our networking and collaboration efforts to reach broader communities and advance our Earth system sciences work.
