

*From time to time really exciting things happen at CPAESS and we will be sending you news splashes to keep you up to date!*

Hello Everyone!

I just wanted to let you know about two virtual information sessions occurring this week that may be of interest to you.

Tomorrow, 21 April at 11:00am MST, NCAR's Climate and Global Dynamics (CGD) Laboratory will have a seminar called [Insights From Earth System Model Initial-Condition Large Ensembles and Future Prospects](#). The speakers are Dr. Flavio Lehner and Dr. Clara Deser. Flavio is one of CPAESS' former NOAA PACE postdoctoral students, and Clara has been a host for the NOAA Climate and Global Change postdoctoral program that CPAESS' manages, and also a Steering Committee member for this fellowship program.

Additionally, please consider attending UCAR's [All-Employee Support Webinar: How To Effectively Telework While Managing Your Well-Being](#) on Thursday, 23 April from 12-1:30pm MST. We are in unusual times and this webinar will contain a lot of useful information that might help in coping with the stress of the pandemic.

Kind Regards,

A handwritten signature in cursive script, appearing to read 'Flavio'.
