

*From time to time really exciting things happen at CPAESS and we will be sending you news splashes to keep you up to date!*

Hello CPAESS Staff,

Are you interested in learning to write opinion pieces, blogs, or other articles for broad audiences, including experts in different geoscience disciplines and the science-interested public? The UCAR Communications Office is sponsoring a lunch-and-learn session with *Eos* editor-in-chief Heather Goss and science editor Tim Oleson. They will discuss how to write compelling and informative pieces for *Eos*. Their advice can also be applied to writing in general.

The online session will run from noon to 1 p.m. on Thursday, January 28 MST. If you are interested [please register here in advance](#).

I know that communicating science is not always easy, but it is becoming increasingly important. I hope many of you find this professional development opportunity to be useful.

All the best,

A handwritten signature in black ink that reads "Heather".
